

Hard Chrome Plating

R.A. Heller Company is locally owned and operated since 1946. We pride ourselves with being a reliable partner, providing quality products, and strive for total customer satisfaction. With a fully equipped machine shop, R.A. Heller Co. of Cincinnati, Ohio, is able to guarantee quality precision grinding and hard chrome plating at competitive prices for your industry. Our company has worked for businesses throughout Southwestern Ohio and has the grinding equipment necessary to handle large and small jobs alike. Call or visit us today to meet with a specialist able to take on your machining or fabricating request.

Machining, Precision Grinding, Fabrication, and Hard Chrome Plating

We specialize in hard chrome plating, precision grinding and machining of new and repaired parts, such as hydraulic rods, rolls, shafts, printing rolls, and pump rotors. Our machine shop offers fabrications, designing, and engineering of small machinery and prototypes, as well as manufacturing for keyseat cutters to fit DC Morrison®, Mitts & Merrill®, and other cutters.

R.A. Heller is delighted to serve the Steel Industry, Paper Industry, Food Processing Industry, Roofing, Coal, Agricultural, and Energy Industry, ie Wind Turbine, Oil, Gas, & Nuclear! We Are One Of The Few In The Area To Rechrome / Repair Progressive Cavity Pump Rotors, ie., Moyno, Roper, Monoflow, Seepex, Netzsch, etc.

Industries:-

Industries for Industrial Repair

R. A. Heller has provided a wide range of industrial repair parts. The following list includes only a sample. Please contact us for additional information, or to see how we can specifically benefit you.

Steel & Aluminum Industry

R. A. Heller has worked closely with the steel and aluminum industries. Whether you operate a hot or cold mill, we can assist you in ensuring the smooth operation of your rolls. Roll manufacturing and repair is a significant area of our work.

Oil & Gas Industry

R. A. Heller has been serving the oil and gas industry for a number of years, providing industrial repair parts for oil rigs and gas drilling components (i.e. mud motor rotors and refining equipment, fracking components).

Can & Punch Manufacturing

R. A. Heller has been involved with the can and punch industry for over 45 years. Because we work within extremely close tolerances, projects from body maker rams, various size punches, and crankshafts to tooling are within our capabilities.

Company Profile for R. A. Heller Co.

R. A. Heller has been locally owned and operated since 1946. We pride ourselves on being a reliable partner, providing quality products, and striving for total customer satisfaction. Our machine shop provides services throughout the Midwest, Southeast, and Northeast regions, so no matter where you are, we can handle your needs.

Our Services

Expert Service in Precision Grinding, Hard Chrome Plating, & Industrial Repair

R.A. Heller Co. has been serving the Greater Cincinnati/Tri-State area for more than 60 years. We serve a variety of industries with the highest quality services, including precision grinding, hard chrome plating, piston rod repair and welding for fabrications.

Piston Rod Repair

Let the Pros Handle Your Hydraulic Piston Rod Repairs

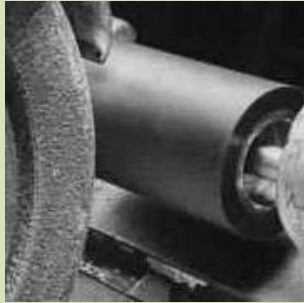

Whenever you have a hydraulic piston rod repair job, trust it to R. A. Heller's piston rod rechrome department. We have over 150 years of collective cylinder repair experience, working on a wide range of jobs from the most critical cylinders for the steel and aluminum industry to environmentally sensitive medical industry.

Our extensive experience is further enhanced by our excellent chrome plating shop, an all purpose machine shop, complete with a fully equipped grind shop.

Precision Grinding

Machine/Grind Shop

RA Heller has a fully equipped Machine Shop, including some of the larger grinding equipment in the Southwestern Ohio, Southern Indiana, and Northern Kentucky area. We are fully qualified to satisfy your most stringent machining requirements, at a competitive price, with timely delivery.

Our Grind Shop offers large I.D. and O.D. grinding capacity specializing in rolls up to 30" OD x 10 ft. in length with the ability to grind a variety of hard coatings. Welding and metalizing capabilities are available upon request.

Our excellent machinery is operated by our veteran machinists, who have extensive knowledge and expertise in machining and industrial repair work. Our years of experience give us the edge on building the right product for you. In addition, we have excellent vendor support which will supply any specialized tooling for complete custom jobs.
